

South Oxfordshire PPS

Data Assessment Summary

January, 2024

CRICKET

This document is not a draft assessment report. The following maps and tables set out the information needed to produce a pitch assessment for cricket from the data gathered to date during Stage B.

Most data was collected between winter 2022 and summer 2023.

Selecting a heading below will allow the reader to “jump” to that map or table. The tables are set out in a logical fashion. All table headings are collapsed (in the Word version) to condense the size of the document, so to access the data in blue heading sections, click on the black triangle to the left of the heading to open and view.

Contents

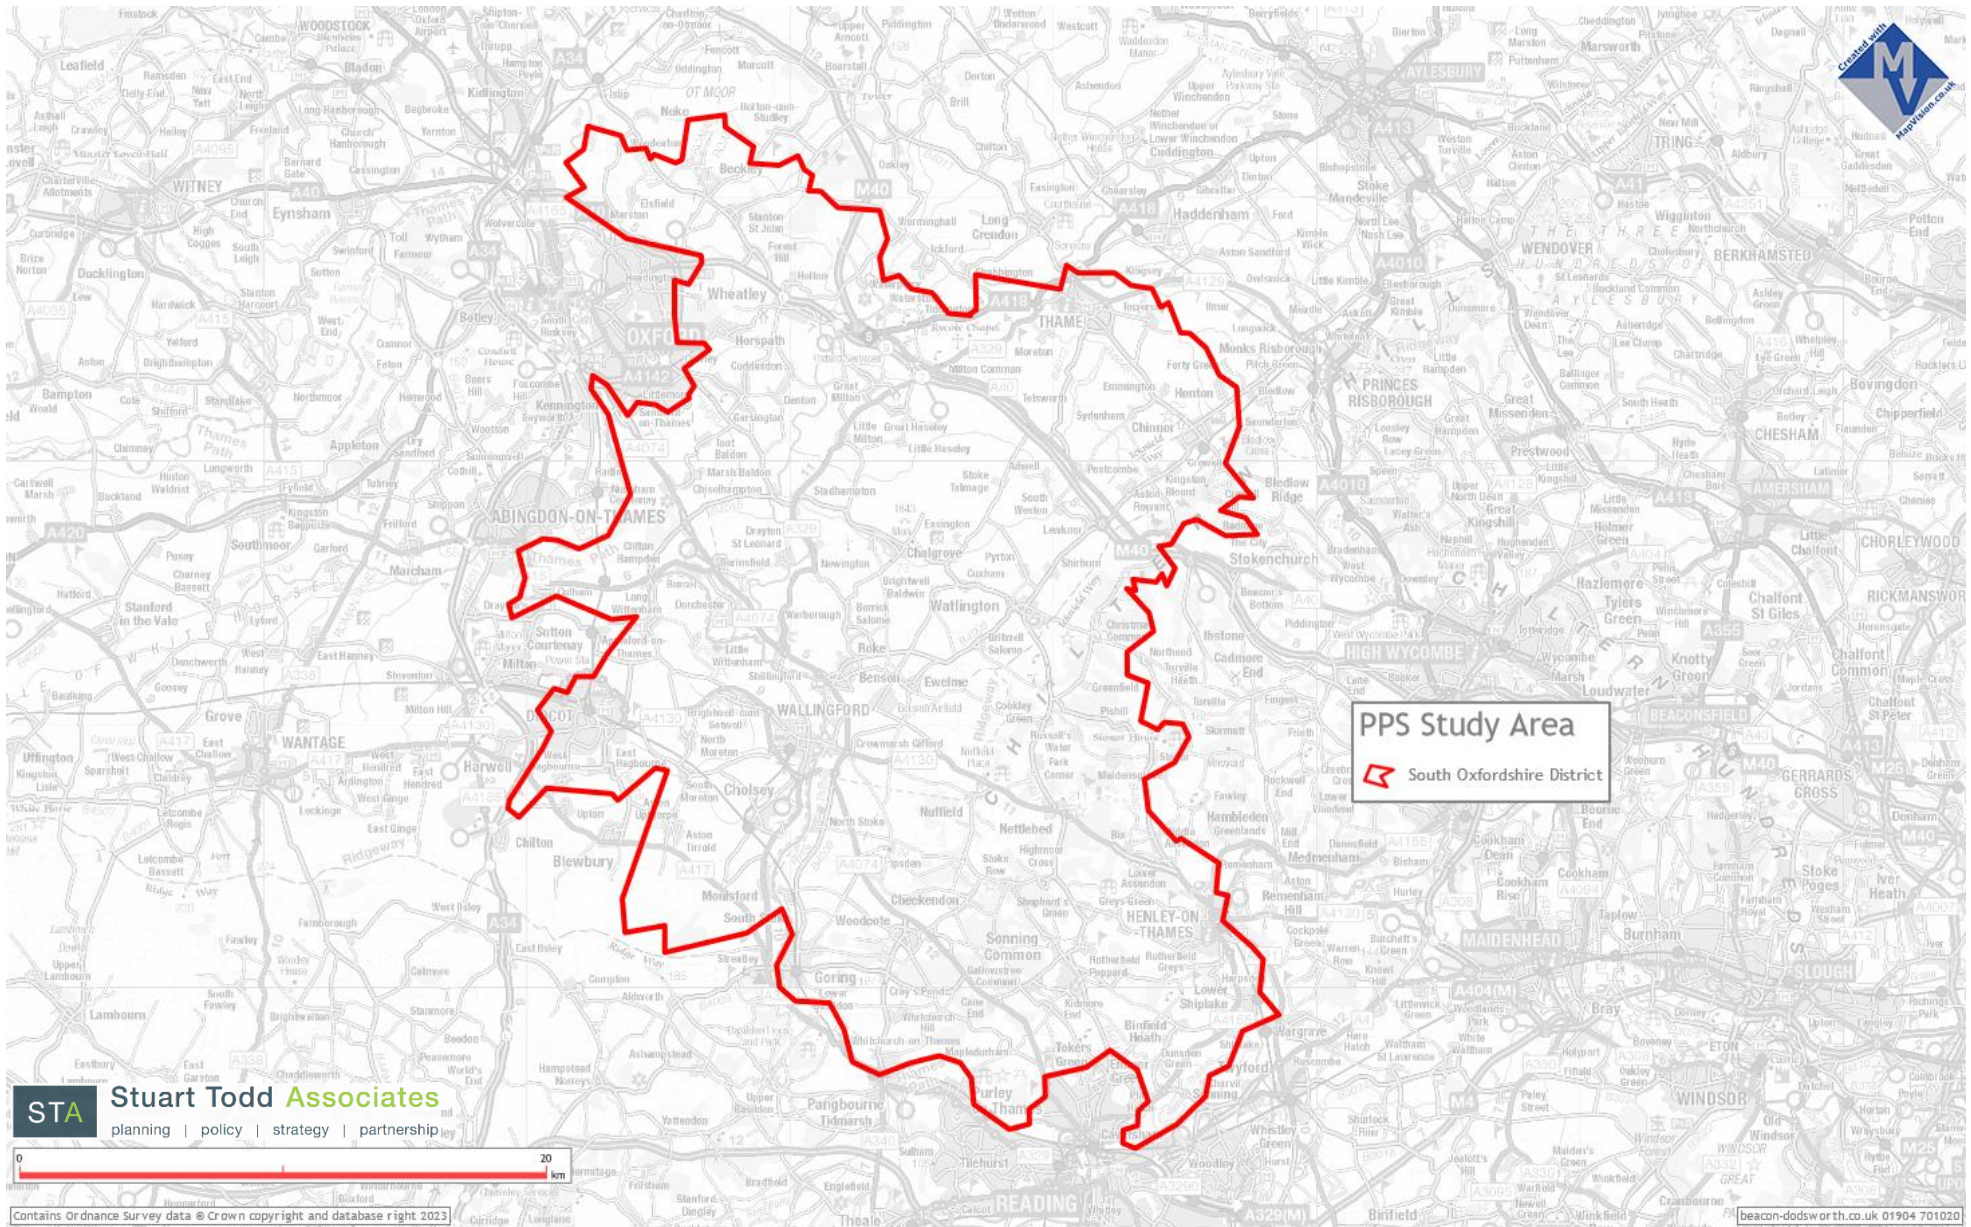

1. SUPPLY	4	k) Not available for community use	35	w) Catchment Areas – 5.5km / 3.4 miles / 20 min average cycle radius catchment from Secure pitches used for Cricket	63
2. CONTEXT	5	l) No longer marked out	36	x) Catchment Areas – 5.5km / 3.4 miles / 20 min average cycle radius catchment from Unsecure pitches used for Cricket	65
a) Sub-areas and study area.....	5	4. QUALITY & KEY ISSUES.....	37	y) Supply / demand balance community use (Grass and NTP pitches)	67
b) Indices of Multiple Deprivation 2019 (IMD)	12	m) Quality – club sites	37	z) Using Over and Under Play Figures... ..	69
c) Housing Allocation Sites.....	16	n) Quality Audit Site Visit Notes	40	aa) Closed pitches	71
d) All Pitches (grass) – Secure and Used 20		o) Parking and Cycle Provision.....	42	bb) Grass Pitches (and Capacity) in the Pipeline	72
e) All Pitches (grass) – Unsecure and Used 22		p) Other key issues	45	cc) Displaced, latent and unmet demand	90

Pitch Ref No.	Club Name	Pitch Name	Comments on quality of grass wickets	Comments on quality of outfield	Comments on quality of non turf pitch	Comments on quality of practice facilities
2239	Clifton Hampden CC	THE RECREATION GROUND CLIFTON HAMPDEN	We don't have funds to improve, it plays ok.	Best we can do with community area.	Not applicable	We have a cage net and bowling machine.

149	Abingdon Vale CC	HALES & HAYES MEADOW 1	Had work done on square couple of years ago, has helped. Held up well this summer in very hot, dry weather, wickets were good and we always had a grass practice wicket as well	No issues apart from animal droppings. Croquet club like it very short on one side which makes it very fast	AVCC has always been low and slow - being next the river doesn't help! This year they have been good wickets, with something in it for everyone, we've seen some good scores and good cricket. I think they've been good	We lack a static net facility, which is a club discussion point and we are trying to fundraise for this. We do have 2 very good mobile nets, astro turf wickets on both squares, grass practice wickets, fly net, other kit.
83	Kidmore End CC	CROWMARSH RECREATION GROUND 3	Very good. Could do with deep drilling to help pace and bounce	Getting better, has been overseeded this year	Na	2 good nets one that needs upgrading
378	Brightwell cum Sotwell CC	THE JUBILEE PAVILLION AND RECREATION GROUND 2	Well looked after by our club groundsman	Used for football in the North and South Ends	NA	Two carpet nets relayed after 10 years
1005	Tiddington CC	TIDDINGTON CRICKET GROUND	Good	Average (needs some off season scarifying)	Poor	Poor
33	Chalgrove CC	CHALGROVE CRICKET CLUB	Been working on to improve each year as had lot of thatch .	Average it gets marks of slow but its a large outfield compaired to other local clubs	Good	We have a roll on net (needs some TLC) an can be used on a used track or artificial
119	Goring-on-Thames CC	GARDINER RECREATION GROUND 2	Usually good, but really struggled this year due to heatwave and lack of watering	Mixed - dependent on frequency of cuts. Some unevenness	Old and need replacing soon	Just non-turf so same as above
286	Henley CC	NETTLEBED SPORTS GROUND 2	Very good but small	Good - bur risk of flooding	Nets - surface would benefit from a refresh	Only 2 Artificial Nets
368	Thame Town CC	THAME TOWN CRICKET CLUB	Well looked after, high quality	Well looked after, but bumpy	n/a	New and high quality

11	Aston Rowant CC	ASTON ROWANT CRICKET CLUB 1	Good, but has deteriorated over the last 10 years as we struggle to raise enough money to continue to invest in it.	Quality of the outfield is very good, we struggle when we have a very dry summer. But everybody does.	They're fine, but we struggle to find the funds to invest in the nets. I don't expect this to change in the near future as we begin funding for a new pavilion.	We continue to invest in our coaching (equipment, qualified coaches etc). The nets could have a better surface, but other than that the facilities are very good for practice (both for juniors and seniors).
346	Cairns Fudge CC	STANTON ST JOHN RECREATION GROUND	Much improved after 2 years of investment with 3rd party	undulating but good grass and fast	n/a	Average
477	Warborough & Shillingford CC	WARBOROUGH VILLAGE GREEN 2	Good and improving with investment and a dedicated groundsman	We hire a roller pre season to create a good surface	Not applicable	Good

n) Quality Audit Site Visit Notes

Pitch Ref No.	Pitch Name	Sub Area	Site Visit Notes
8	ACKLINGS SPORTS FIELD 1	West (South Oxfordshire)	No pitch at site - too small. Concrete where former nets were.
11	ASTON ROWANT CRICKET CLUB 1	East (South Oxfordshire)	Two pitch site - second pitch is sloped
12	ASTON ROWANT CRICKET CLUB 2	East (South Oxfordshire)	Two pitch site - second pitch is sloped
33	CHALGROVE CRICKET CLUB	West (South Oxfordshire)	Basic pavilion. Mobile nets probably moved over NTP for practice.
37	CHECKENDON PLAYING FIELD 2	South (South Oxfordshire)	Poor quality pavilion
58	CHOLSEY RECREATION GROUND 3	West (South Oxfordshire)	No cricket pitch at site
67	COW COMMON 2	West (South Oxfordshire)	No netting on nets, just frame
83	CROWMARSH RECREATION GROUND 3	West (South Oxfordshire)	
90	DORCHESTER-ON-THAMES RECREATION GROUND 2	West (South Oxfordshire)	

117	GALLOWSTREE COMMON RECREATION GROUND 2	South (South Oxfordshire)	Great cricket site - U9 and U11 pitches for AllStars
119	GARDINER RECREATION GROUND 2	South (South Oxfordshire)	Very sloped site
121	GARSINGTON SPORTS CLUB 2	North (South Oxfordshire)	
135	GREAT HASELEY PLAYING FIELD	North (South Oxfordshire)	
139	GREAT MILTON RECREATION GROUND 2	North (South Oxfordshire)	Grass on wicket longer than outfield
142	GROVELANDS SPORTS GROUND 3	North (South Oxfordshire)	Boggy ground around wicket
149	HALES & HAYES MEADOW 1	West (South Oxfordshire)	
150	HALES & HAYES MEADOW 2	West (South Oxfordshire)	
151	HARPSDEN CRICKET GROUND	South (South Oxfordshire)	Cricket only site. Golf club next door made car park full. Overspill for cricket parking on grass by pavilion. Very busy entrance and car park with golfers.
176	HOLTON PLAYING FIELDS 3	North (South Oxfordshire)	School playing fields - pupil having lesson at time of visit
183	HORSPATH SPORTS GROUND 6	North (South Oxfordshire)	No cricket pitch at site
190	HORSPATH VILLAGE RECREATION GROUND 1	North (South Oxfordshire)	Excellent nets
191	HORSPATH VILLAGE RECREATION GROUND 2	North (South Oxfordshire)	Excellent nets
226	LEWKNOR RECREATION GROUND	East (South Oxfordshire)	No cricket pitch at site
265	MOULSFORD RECREATION GROUND 1	West (South Oxfordshire)	No cricket pitch at site. At back of site, behind hedgeline are Cranford House School Playing Fields (sign up saying 'no community use'). Cricket nets there for school use only.
286	NETTLEBED SPORTS GROUND 2	East (South Oxfordshire)	Very boggy on outfield and near wicket
304	PEPPARD COMMON 2	South (South Oxfordshire)	
305	PRESTCOLD CRICKET CLUB	South (South Oxfordshire)	Pitch slightly sloped. Mobile nets probably used on grass wicket. Tree in middle of outfield. Horses kept in field surrounding the cricket pitch - probably private land owners.
346	STANTON ST JOHN RECREATION GROUND	North (South Oxfordshire)	Great site - cricket only
349	STATION ROAD PLAYING FIELDS (CHINNOR) 3	East (South Oxfordshire)	
356	SWYNCOMBE CRICKET CLUB	South (South Oxfordshire)	Sloped pitch
358	TETSWORTH SPORT & SOCIAL CLUB 2	East (South Oxfordshire)	Boggy outfield
368	THAME TOWN CRICKET CLUB	East (South Oxfordshire)	Great site - excellent net facility
371	THE ASTONS RECREATION GROUND 2	West (South Oxfordshire)	Just carpet and not hard standing for nets
378	THE JUBILEE PAVILLION AND RECREATION GROUND 2	West (South Oxfordshire)	
454	THE VILLAGE GREEN	West (South Oxfordshire)	Very basic and run-down pavilion. Boundary line is painted onto road that runs through outfield of pitch.

470	WALLINGFORD SPORTS PARK 6	West (South Oxfordshire)	Not mowed properly but roped off area (4 wickets) in middle of football pitches at front of Sports Park. Not suitable for matches but looks like they're trying for recreational use this summer.
477	WARBOROUGH VILLAGE GREEN 2	West (South Oxfordshire)	
482	WATLINGTON SPORTS GROUND 2	East (South Oxfordshire)	
493	WHITCHURCH ON THAMES CRICKET CLUB 1	South (South Oxfordshire)	Small boundary line - might be junior pitch
506	WOODCOTE RECREATION GROUND 3	South (South Oxfordshire)	Boundary line right up to the pavilion
577	BOUNDARY PARK (HARWELL) 3	West (South Oxfordshire)	Football on second pitch outfield
1001	THE PARK SPORTS CENTRE (WHEATLEY)	North (South Oxfordshire)	No pitch at site
1004	IPSDEN CRICKET GROUND	West (South Oxfordshire)	Sloped wicket and outfield
1005	TIDDINGTON CRICKET GROUND	North (South Oxfordshire)	
1073	STOKE ROW SPORTS AND LEISURE CLUB	South (South Oxfordshire)	Sloped outfield
NEW SITE	MP CRICKET ACADEMY SPORTS GROUND 1	East (South Oxfordshire)	Kingsey Rd, Thame OX9 3JL. Huge site, two pitches, excellent nets. Lack of ancillary facilities - portaloos, marquee and very run-down caravan (full of old cricket gear) only. Concerns for child safety as there is a lack of changing facilities and lack of appropriate WC provision.
NEW SITE	MP CRICKET ACADEMY SPORTS GROUND 2	East (South Oxfordshire)	Kingsey Rd, Thame OX9 3JL. Huge site, two pitches, excellent nets. Lack of ancillary facilities - portaloos, marquee and very run-down caravan (full of old cricket gear) only. Concerns for child safety as there is a lack of changing facilities and lack of appropriate WC provision.
NEW SITE	MORETON CRICKET CLUB	West (South Oxfordshire)	Slightly sloped grass wickets, NTP and outfield. Very nice nets - all fenced off.
NEW SITE	CLIFTON HAMPDEN CRICKET CLUB	West (South Oxfordshire)	No straight cut and height of grass wicket. Mobile nets only.
NEW SITE	CHOLSEY CRICKET CLUB	West (South Oxfordshire)	

o) Parking and Cycle Provision

p) Other key issues

Site Name	Sub Area	Club Name / source	Sport	Comment Pitch and Site
BOUNDARY PARK (HARWELL)	West	Didcot CC	Multi sport	<ul style="list-style-type: none"> Boundary Park is a shared with football and rugby and is run by the Boundary Park Sports Association on a long term agreement with the council. The cricket club is continuing to expand and currently runs mens, women and boys teams from U9 to U19. The club are starting a girls section in 2023. <ul style="list-style-type: none"> The site is also used for representative games for Oxfordshire Cricket Board. The second ground is located in the middle of rugby pitches and there are scheduling clashes with the other sports. It is also part of a public park. <ul style="list-style-type: none"> Main cricket ground is fenced off and is self contained. Club are looking for a third ground over next year or so to cater for growth in membership. Site is overused for football and this creates quality issues for cricket outfield areas, as well as scheduling issues. Opportunity with large housing development to relocate one of the winter sports to a new location and expand the cricket provision at Boundary Park.
ASTON ROWANT CRICKET CLUB	East	Aston Rowant CC	Cricket	<ul style="list-style-type: none"> Club have 4 mens teams and run juniors from U9 to U19. The club is at the heart of the community and the membership is continuing to grow. Boys cricket is still growing but have struggled to establish a W&G section to date. Also the club sometimes struggle to get players for 4 mens teams. <ul style="list-style-type: none"> The club have a long term lease on the site which has 2 senior grounds. Site is basically at capacity and is run by a volunteer grounds team. Square still plays well however has deteriorated slightly over recent years and requires some additional attention to bring it back up to the desired level. <ul style="list-style-type: none"> Practice nets are okay but are in need of replacement in next 5 to 10 years. Club have 2 changing rooms in main pavilion, which also has a small bar, and uses port cabins for the second ground. Club have aspirations to build new changing block to service the second ground, adjacent to the boundary. Also the main pavilion is in need of a major overhaul as current facilities are old and not fit for purpose. This will include remodelled changing rooms and enhanced social areas to service cricket club and local community.
TIDDINGTON CRICKET GROUND & GREAT HASELEY PLAYING FIELD	North	Tiddington CC	Cricket	<ul style="list-style-type: none"> Main ground is at Tiddington Cricket Ground which is a 1 pitch site. The club use Great Hasley Recreation Ground as their second ground. The main ground is held in trust from St Lukes Hospital and unable to purchase it as it would have to be sold on the open market. The site can only be used for cricket. <ul style="list-style-type: none"> The main site is heavily overused and club are unable to expand existing provision.

				<ul style="list-style-type: none"> • The site is constrained and limits the amount of activity it can accommodate. Increasing the capacity of the main site is critical to the club to continue to grow. • There is an old single practice net facility n the site which is no longer fit for purpose and a new net facility is needed to increase capacity on the site. • The pavilion is also no longer fit for purpose and does require renovation to bring it up to modern standards. <ul style="list-style-type: none"> • Great Hasley is the second ground with the club using it on Saturdays and weekdays. Sundays it is used by Great Hasley CC. • The club have used site for 10 to 12 years and have invested heavily into the square and playing area. <ul style="list-style-type: none"> • Club are trying to secure a long term arrangement on the site to ensure it is secure for their continued usage. • The square is very small and it requires a NTP and possibly some addtional grass wickets to cater for the demand. • The pavilion is very small and the club would like to develop this to provide better basic amenities for players and spectators.

v) Demand community use (secure pitch by pitch summary)

We have been asked, by the RFU, to record play (demand) only on pitches which have posts installed. Therefore, pitches and training grids without posts, used by some clubs out of necessity (as overflow pitches) to accommodate demand have not been considered in the figures below. Demand on those overflow pitches have been added to demand on pitches with goalposts.

z) Using Over and Under Play Figures

Using Over and Under Play Figures

The pitch over and under play figures generated by the Assessment should not be used in isolation. The figures alone need to be treated with caution for a number of reasons:

- They cannot represent local qualitative or 'on the ground' issues, and should therefore be read in conjunction with other information gathered;
- They could mask issues generated by peak time demand;
- Slight overplay may be manageable for quality of the pitch and / or the standard of football being played (and therefore of the quality expected). For example, overplay of up to 1.5 matches per week may be acceptable if the pitch quality is being maintained to at least a "standard" condition;
- Overplay on a pitch may be resolvable through improved maintenance or drainage to improve the quality of the pitch and therefore the capacity to accommodate matches. Reducing the amount of play on a pitch and moving play to an alternative pitch is also likely to improve quality;
- Identifying figures which indicate overplay and a deficit of pitch capacity does not necessarily mean that new pitches need to be provided. Alternative existing sites with pitches not currently in community use could be brought into use or under-used pitches better utilised to absorb demand or artificial grass pitches could play a role in better managing overplay or a deficit in grass pitch provision; and,
- While clubs which are identified as having capacity issues may need the use of an additional pitch, they may not have the ambition to increase the size of the club in this way, i.e. they may be content with the status quo.

ee) Playing Pitch Calculator

Several scenarios have been “run” through the Sport England playing pitch calculator for each sub-area to understand potential demand for playing pitches by the end of the strategy period and for individual strategic housing allocations where there is not yet any confirmation of the provision to be made for sport. The scenarios for these areas have been run for the following:

1. A 0% change in participation rates across all sports;
2. Specific % increases in participation rates agreed with the sports governing bodies, which reflect the most likely change across age groups and sexes;
3. A 10% participation rate increase representing an ambitious “top-end” of change, unlikely to emerge based on previous trends but representing ambition if provision for this rate is viable. These higher % increases may be achievable in one or two age groups or sexes in one or two sports but evidence suggests that this is unlikely based on what we know.

Scenario 2 participation rates to test were agreed as follows.

Cricket	Participation Rate Increase
Men (19-55yrs)	5%
Women (19-55yrs)	25%
Boys (7-18yrs)	10%
Girls (7-18yrs)	30%

The playing pitch calculator works by entering the current population for an area, the current number of teams in the area and an additional projected population likely to arise in the area. As noted above, participation rate changes can be entered to allow for potential growth. This can therefore take into account factors such as unmet, latent and aspirational demand, but all figures emerging from the calculator will be “sense checked” during the full assessment process. The results provide the estimated additional number of pitches required to serve demand from the additional population and related costs. The figures do not mean that the suggested number of pitches must be provided in the area to which the scenario relates. The full assessment will “ground” figures from the calculator and apply realistic and appropriate apportionment of the calculator’s figures for demand.

Note: The appropriate way to meet the estimated demand

It is important the results are looked at alongside the findings, recommendations and action plan of the PPS for the area to help determine the most appropriate way of meeting the demand and justifying any resulting proposals. This should include:

1. Using the PPS to understand the nature of the playing pitch sites within an appropriate catchment of the new population along with issues, recommendations and actions relevant to that area.
2. Looking at the different ways in which the demand could be met, including for example:
 - a. Enhancing existing provision to increase its capacity, supported by suitable management and maintenance arrangements to ensure the greater capacity is maintained over the longer term;
 - b. Undertaking works, and ensuring long term maintenance and access arrangements, to secure new or greater community use of existing provision;
 - c. Providing new pitches on new sites (natural and/or artificial grass pitches).
3. Having regard to the Government's regulations, policy and guidance regarding the use of the Community Infrastructure Levy and planning obligations (e.g. the Regulation 122 tests)

Note: If the decision is taken to provide new pitches, then the calculator takes the estimated demand for the use of pitches for matches and training activity and converts this into an estimate of the likely pitch provision required to meet the demand. Indicative costs are also provided to provide this level of pitch provision.

Outputs from the calculator are reproduced below for each sub-area and housing allocation sites where the PPS has the opportunity to influence provision. Full input and output files from the calculator are available if required for further scrutiny.

Given that the population projections for the District provided to us have been derived on a different basis to the basic method we have used for the allocation sites, figures for the allocations sites may not represent an exact proportion of the sub-area total as a whole, but nevertheless provide a good guide for likely demand to arise from the developments.

North Sub-Area

Scenario 1 - 0% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	2.03	£715,439	£144,519	4.05	£818,419

Scenario 2 – NGB agreed change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	2.22	£782,487	£158,062	4.43	£895,118

Scenario 3 – “High” 10% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket					

Oxford Brookes University (Wheatley Campus) Housing Allocation (c.500 dwellings)

Scenarios have been run based on a population of around 1,200 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.57	£199,808	£40,361	1.13	£228,568

Scenario 2 – NGB agreed change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.62	£218,532	£44,144	1.24	£249,988

Scenario 3 – “High” 10% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket					

Land North of Bayswater Brook Housing Allocation (c.1,450 dwellings)

Scenarios have been run based on a population of around 3,480 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	1.64	£579,410	£117,041	3.28	£662,810

Scenario 2 – NGB agreed change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	1.79	£633,710	£128,009	3.59	£724,926

Scenario 3 – “High” 10% change in participation rate

	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket					

Grenoble Road Housing Allocation (c.3,000 dwellings)

Scenarios have been run based on a population of around 7,200 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.77	£273,241	£55,195	1.55	£312,571

Scenario 2 – NGB agreed change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.85	£300,676	£60,737	1.70	£343,956

Scenario 3 – “High” 10% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket					

Northfield Housing Allocation (c.1,800 dwellings)

Scenarios have been run based on a population of around 4,320 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.46	£163,947	£33,177	0.93	£187,546

Scenario 2 – NGB agreed change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.51	£180,409	£36,443	1.02	£206,377

Scenario 3 – “High” 10% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket					

Chalgrove Airfield Housing Allocation (c.3,000 dwellings)

Scenarios have been run based on a population of around 7,200 derived from an average household size of 2.4 people. This is considered sufficient for the purposes of calculating potential demand for pitch sports from the development once it has been delivered. Changes to the household size would likely be tenths of a whole, which would result in a very minimal change to pitch demand established through the calculator, particularly when making assumptions about pitch number rounding. Figures represent a part of the total for the sub-area and are not in addition to other figures for scenarios run for the whole sub-area.

Scenario 1 - 0% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.77	£291,147	£53,571	1.55	£331,232

Scenario 2 – NGB agreed change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.85	£320,401	£58,954	1.70	£364,514

Scenario 3 – “High” 10% change in participation rate

Part 4: Estimated demand and costs for new pitches (matches and training demand) and ancillary provision					
	Number of pitches required to meet the estimated demand	Capital Cost	Lifecycle Cost (per annum)	Changing rooms (number)	Changing rooms (capital cost)
Cricket	0.88	£329,071	£60,549	1.75	£374,378

ff) Comparing Current Supply, Demand and Future Projected Demand

Cricket Supply / Demand Snapshot (unsecure and secure community use combined)						
Sub-area	Teams	Surface	Supply	Demand	Supply / demand balance	Projected additional future demand
			(match equivalents)			
East	Women	Grass	430	380	50	138
	Men Juniors	Artificial	0			
North	Women	Grass	386	322	64	89
	Men Juniors	Artificial	0			
South	Women	Grass	472	437	35	5
	Men Juniors	Artificial	0			
West	Women	Grass	612	477	135	169
	Men Juniors	Artificial	240			
South Oxfordshire	Women	Grass	1,900	1,616	284	401
	Men Juniors	Artificial	240			
Projected additional demand across South Oxfordshire to 2041			Match equivalents (training & matches)		401	

	Pitches (grass)	81
	Pitches (artificial)	7

gg) If all pitches currently used by club which are not good quality are improved to accommodate capacity (additional capacity on existing pitches which would reduce overall demand to 2032)

Sub Area	Projected Additional Demand	Additional supply from improved existing pitch quality	Net Additional demand if pitch quality improved	Additional pitches to meet additional demand - Grass	Additional pitches to meet additional demand - Artificial
East	138	30	108	22	2
North	89	24	65	13	2
South	5	18	-13	-	
West	169	18	161	33	3
Total	401	90	311	68	7

hh) Testing Scenarios

Scenario A - No education sites in supply (which currently have community use)

		<u>Education sites supply (match equivalents / hours for AGPs)</u>									<u>Main Implications</u>		
		<u>Football</u>					<u>Rugby</u>		<u>Cricket</u>	<u>3G</u>			<u>Sand / water</u>
		<u>11v11 adult</u>	<u>11v11 youth</u>	<u>9v9</u>	<u>7v7</u>	<u>5v5</u>	<u>Senior</u>	<u>Junior</u>					
<u>North</u>	<u>Secure*</u>	=	=	=	=	=	=	=	=	=	=		
	<u>Unsecure</u>	=	=	=	=	=	=	=	=	=	=	<u>L</u>	
<u>South</u>	<u>Secure*</u>	=	=	=	=	=	=	=	=	=	=		
	<u>Unsecure</u>	=	=	=	=	=	=	=	=	=	=		
<u>West</u>	<u>Secure*</u>	=	=	=	=	=	=	=	=	=	=		
	<u>Unsecure</u>	=	=	=	=	=	=	=	=	=	=		
<u>East</u>	<u>Secure*</u>	=	=	=	=	=	=	=	=	=	=		

	<u>Unsecure</u>	=	=	=	=	=	=	=	30	=	=	<u>Lord Williams School grass pitches are used by Tame Town CC for 2 senior teams. The club would like to secure this site and create a partnership with the school for a more permanent home. If this site was lost then an 18 match equivalents (or 4 grass pitches) would need to be secured elsewhere.</u>
Total	<u>Secure*</u>	=	=	=	=	=	=	=	=	=	=	
	<u>Unsecure</u>	=	=	=	=	=	=	=	30	-	-	

Notes: * Education sites, even with a secure community use agreement in place, are not considered secure enough to provide long-term security.

Scenario B - Supply lost in areas of high deprivation

While there are two areas within the top 40% areas of deprivation in the country in Vale of the White Horse, neither have any playing pitches within them. Therefore, there are no scenario results to apply in Vale of the White Horse. There were no areas of deprivation in the top 10%, 20% or 30% areas of deprivation in the District.
